

**x *Agropogon lutosus* (Poir.) P. Fourn.****Perennial Beard-grass  
1641-2011****National Status: Unlisted, Scarce, Native****S Hants: Scarce**

Native

A hybrid that appears to arise in new sites from time to time. The first British record was from near Southsea Castle (SZ69) by Goodyer. Also formerly recorded in the Hamble / Warsash area (SU40Y), Gosport (SZ59 or SU50), and near Portchester (?SU60).

<b>Lower Pennington</b>	<b>SZ3193</b>	<b>2011</b>			
Lower Pennington	SZ311932	21-Jun-11	MWR		With both parents in damp grassland
