

Galeopsis angustifolia, 1990-2023, at least 6 fig grid ref Best to Search: mid July - mid September

Yellow highlighting is for sites I favour visiting first

Site Name	Gridref	Date	Comment
Cholderton Estate, Quarley, Tower Field	SU239413	04-Aug-06	On west side of Stone Curlew plot. It occurs naturally and spasmodically throughout this estate.
Cholderton Estate, field 600m south of Quarley Down Farm	SU240409	04-Oct-04	Originally found by Henry Edmunds. Apparently this is an old site for this species but, due to crop and usage rotation, it shows very infrequently.
Field at west end of Cholderton Lane, Quarley	SU250423	29-Sep-14	Plants in stubble NE of centre of field at SU2506 4244
Field at west end of Cholderton Lane, Quarley	SU250423	19-Sep-07	In wheat stubble near centre of field at SU2512 4254
Cholderton Road (field), Quarley	SU250425	01-Jan-94	36 in stubble
Quarley Hill, W of	SU252423	28-Jul-04	2 plants on NW edge of arable field, SU252423 to SU254424. Previously found in next field.
Field off Cholderton Road, Quarley	SU252424	30-Jul-01	BAP 2001/41 Field entrance area
Kentsboro, field west of A343	SU307403	28-Sep-14	15 plants between SU3083 4027 and SU3085 4027, 2 plants at SU3075 4028. All growing in margin between fallow southern section of field and stubble from previous crop (barley) i.e some in the stubble and some just outside.
Kentsboro, field west of A343	SU307403	24-Sep-08	In uncut edge of barley rank with perennial sow thistle at SU3073 4034
Kentsboro	SU30864023	11-Sep-05	Four plants on arable field edge.
Little Park (Abbotts Ann) field F16, between railway lines	SU329451	27-Jun-99	On northern edge of field (no sign of these later in year - eaten by rabbits?)
Andover Western Ring road NE of Stockbridge Down	SU342464 SU377354	01-Jan-92 19-Aug-00	disturbed ground on edge of industrial estate 11 within 20 x 1m strip
NE of Stockbridge Down	SU377354	19-Aug-00	BAP 18. SU3778 3543. 1/2 hr. S.W. margin of wheat field ... Area of surv: 35 x 1m. Alt: 100m. Aspect: SW. Slope: gentle. Subst: Chalky. 11 flg plants in area 20 x 1m strip. Summary: Walked both edges of field, to NW & NE, to road, no more Galeop. Kickxia spur., K. elat., & Card. nutans seen (not in surveyed strip). Annotated map & assoc. spp. list on form.
Old Burghclere lime quarry	SU471572	21-Jun-22	
Old Burghclere Lime Quarry	SU47235721	25-May-19	Several tiny seedlings on 'scree' of bare chalk.
Old Burghclere Lime Quarry	SU472572	22-Jul-10	c. 70 plants estimated.

TPP records in VC12 to search in 2024-1.xlsx

Old Burghclere Lime Quarry	SU472572	04-Jul-08	on open scree at SU4721 5724
Field west of New Barn Cottages, Laverstoke Lane	SU489466	02-Aug-05	On south side of track leading west from New Barn Cottages, 200m up track.
New Barn Cottages, Laverstoke	SU489466	01-Jan-94	Footpath above New Barn Cottages, after zig-zag
Laverstoke, New Barn Cottages, Fld margin to W	SU48984660	02-Aug-05	arable field crop [6 row barley?]edge. One healthy plant beside machinery access track into fld near cranked margin
Ashley Warren Farm	SU495552	22-Aug-08	Single vegetative plant at SU4959 5528.
Ashley Warren Farm	SU496553	22-Aug-08	Single plant in flower at SU4961 5529 together with three vegetative plants.
Christians II field, Ashley Warren Farm	SU496553	15-Oct-03	Spread over 50m*100m patch towards north of field. 50% in flower, 50% in seed.
Kitelands, W of Micheldever Station	SU50374253	27-Jul-02	Along field edge from SU5041 4252 to SU5037 4254. Habitat later destroyed in 2004 by sowing grass on headlands.
Magdalen Hill Down	SU508291	01-Jan-98	reclaimed cornfield
Morn Hill	SU518291	30-Aug-11	On bare chalk cutting at SU5181 2915
Morn Hill, Winchester	SU518291	13-Aug-14	At usual site
Morn Hill, Winchester	SU518292	20-Aug-13	On chalk bank where previously recorded but not seen in 2012
Tidgrove Warren Farm	SU518542	03-Sep-18	100 to 300 plants.
Tidgrove Warren Farm	SU518542	20-Aug-17	Dozens of plants around SU5188 5427, plus many dozens at SU5182 5421 including a couple of albinos with white flowers.
Tidgrove Warren Farm	SU518542	22-Aug-16	At SU5184 5425 (at least 20 plants) SU5195 5428, SU5182 5421, SU5183 5424 (group of four, large branched plants with flowers and seeds) and scattered in groups of up to 20 across the field
Tidgrove Warren Farm	SU518542	07-Jul-16	Plants noted at SU51846 54274, SU51850 54278, SU51844 54272 and SU51855 54279.
Micheldever Spoil Heaps	SU51904472	14-Jun-21	Minimum of 60 small seedlings recorded on bare chalk, halfway down steep slope, across c.10 square metres.
Micheldever Spoil Heaps HWT reserve	SU519443	12-Aug-04	Southerly mound, N end, nr top of barish, W-facing slope
Micheldever Spoil Heaps	SU519444	20-Jul-19	Five very small plants with 1 or 2 flowers, mostly 2cm tall.
Micheldever Spoil Heaps	SU519444	23-Aug-16	25 plants at SU5196 4442 and 35 at SU5199 4446.
Micheldever Spoil Heaps	SU519444	19-Jul-10	A few plants on the spoil heap closest to the reserve entrance (SU5199 4446) and a few in the SW corner of site.
Micheldever Spoil Heaps	SU519444	05-Jul-09	A few very small plants at SU5197 4444 and hundreds of tiny plants on the very steep bare chalk at SU5199 4446.
Micheldever Spoils Heaps Reserve	SU519444	08-Jun-05	many hundred of tiny seedlings at SU5199 4447. More detailed and localised counts by Michael Edwards on 26 July 2005 gave a total of 1,114 plants for the whole reserve.
Roundwood Estate, old chalk spoil heaps	SU519447	23-Aug-17	Small plants localised to a small area on a bare chalk bank at SU5191 4472 extending to SU5190 4472.

TPP records in VC12 to search in 2024-1.xlsx

Roundwood Estate, old chalk spoil heaps	SU519447	21-Jul-13	100 to 150 very small plants confined to a 10m x 5m patch of steep, bare chalk at SU5190 4472.
Micheldever Spoil Heaps HWT reserve	SU51964442	04-Jul-99	c. 20-30 plants on bare west-facing steep chalk 'scree'
Micheldever Spoil Heaps	SU51984446	14-Jun-21	Minimum of 60 small seedlings.
Micheldever Spoil Heaps HWT reserve	SU520444	04-Jul-99	'20-30 tiny starved plants just a few yards further E [of the telegraph pole]'. Ref: L-BGo-17b
Micheldever Spoils Heaps Reserve	SU520445	04-Jul-99	c.20/30 plants on bare W facing steep chalk 'scree'.
Steventon Warren Farm, North Waltham	SU543451	01-Jan-91	Set-aside arable
Manydown Estate, North	SU594500	19-Aug-15	SU5942 5006 (one quite large plant) and SU5938 5006 (three smaller plants).
Manydown	SU594500	07-Jul-15	Some six plants in a 6m stretch at SU59424 50068.
Manydown, Battledown South field	SU596503	01-Jan-08	Grid ref. is near centre of the field. Important Arable Plant Area (IAPA) species score 9, total score for field is 47. Overall Manydown Estate score is 71 (nationally important) and including 1987-93 records, the score is 102 (internationally important).
Manydown, Battledown North field	SU596507	06-Aug-09	Grid ref. is near centre of the field. Important Arable Plant Area (IAPA) species score 9, total score for field is 26.

I have omitted some earlier records, or duplicates, with the same grid reference.
