

Scandix pecten-veneris, 1990-2023, at least 6 fig grid ref Best to Search: early May - late July

Yellow highlighting is for sites I favour visiting first

Site Name	Gridref	Date	Comment
Cholderton Estate, private garden	SU23894236	27-Jul-19	From seed introduced into pure gravel in a garden.
Park Farm, Over Wallop, field 1	SU284405	01-Jul-15	16 plants at SU2844 4058. IAPA species score 9, overall score for field 38.
Fyfield, Manor Farm	SU286471	12-Aug-13	50 plants on field edge at SU2866 4719. Although this long c.700m strip has been thinly sown with wildflowers I believe this species was not included in the sowing as all the plants are concentrated in such a small area under 10m across.
Longparish, Southside Farm	SU437434	01-Jan-04	abundant over about 30m of field edge, surveyed after harvest.
Longparish, SE of	SU438435	03-Aug-11	One plant at SU43896 43518, in seed at cornfield edge.
Southside Farm, Longparish	SU441435	01-Jan-04	
Roundwood Estate	SU515448	01-Aug-09	A few plants in this field, and the farm manager reports many more in the field to the north-east.
Malshanger, Waitings field	SU546511	04-Jul-14	One plant at SU54672 51125. IAPA species score 9, overall score for field 30. [Not refound by Alison Cross July 2018].
Battledown Farm, Oakley	SU599507	01-Jun-01	At least 20 plants in field of corn.
Battledown Farm, Oakley	SU599507	01-Jan-98	Pack Lane, headland of arable field nr. Basingstoke. Known 10 years
Worting	SU605527	03-Aug-21	Well over 100 plants along entire length of field margin. Photos taken , confirmed by Tony Mundell.
Worting	SU606526	03-Aug-21	Well over 100 plants along entire length of field margin. Photos taken , confirmed by Tony Mundell.
Manydown Estate, Severalls field	SU607526	01-Aug-16	40 plants in SE corner of Severalls field at SU60727 52604.

I have omitted some earlier records, or duplicates, with the same grid reference.
